PROFILE

I am a highly motivated software engineer with expertise in ASP.NET, ADO.NET, DBMS, HTML/CSS, JavaScript/jQuery, MVC, SQL, Azure, C programming, and problem-solving. I am seeking a challenging position where I can leverage my skills to develop innovative solutions and contribute to the success of a dynamic team.

SKILLS

Frontend/Backend

Angular, HTML/CSS, JavaScript/jQuery, C#, .NET Core, ASP.NET, SQL Server

Cloud

Azure [APIM, Functions, SQL], AWS [CloudWatch, Lambda, RDS]

PROFESSIONAL EXPERIENCE

Seasia Infotech, *Associate Consultant Software Engineer*   Jan 2023 – present | Mohali, India

Helpdesk Project
- Developed a help desk system to streamline incident management and requirement gathering for the IT department. Implemented a user-friendly UI using Angular TypeScript and JS functions.
- I collaborated with backend developers using ASP.NET for data binding or data projection on the DOM and also used different Angular Frameworks.

Hospital Management System
- Designed and developed a comprehensive hospital management system. Utilized SQL for efficient data storage and LINQ queries to fetch data and retrieve it, and tested APIs using Postman.
- Implemented CRUD operations to manage employee data within a healthcare setting. Frontend development using Angular for a user-friendly and responsive interface.
- Used Azure Function for API management and scaling, Azure SQL for Database.

MainStreet
- MainStreet is a real estate project designed to analyze the progress of buildings or apartments, aimed at facilitating sales management. It involves keeping records of tenants and their payments.
- I worked as a front-end developer, ensuring seamless integration between frontend and backend systems with Angular and also committing code on GIT and deploying using Filezilla.

EDUCATION

Tulas Institute, *B.Tech Computer Science & Engg.*   Aug 2019 – Jul 2023 | Dehradun, India
